

When  
SOMEONE  
you love  
BECOMES A  
memory.  
THAT MEMORY  
becomes a  
TREASURE

**We dedicate the 2022 Elroy Fair Book to the members of our Elroy Fair family who have lost a loved one in the unprecedented past few years.**

**A loved one leaves so many memories when they leave us grieving for them on this earth. There are memories of past fairs, family celebrations, vacations, births, marriages, and every day events. One family member may remember every detail of certain events that another has no recollection of. Some of these events happened so often they become a permanent part of the family's calendar. Eventually some of these events became a tradition that started to happen year after year with little thought of whether or not it should or would; then suddenly it seems family participation was just assumed! Assuredly, each and every one of these family memories and traditions occupies a special place in the heart of the one who holds it.**

**Because our Elroy Fair family is so important to us, we want to honor those who are no longer with us but who spent time at the Elroy Fair making memories and making the first fair of the summer one of their family traditions. Take a moment to reflect on your memories and then store these treasured memories in your heart forever.**

**We extend our deepest sympathies to those families as they recall and treasure the memories of their loved ones during this fair season and every day.**

*forever  
IN OUR  
hearts*
