Stacie Kopenhafer

2025-26

Fairest of the Fair

Welcome to the Elroy Fair! I am Stacie Kopenhafer, the 2025-26 Fairest of the Fair, it has truly been an honor to represent our fair and the incredible community that makes it so special. Over the past year, I've had the opportunity to travel to other fairs, share the story of the Elroy Fair, and connect with so many

people who share the same passion for agriculture, tradition, and community. One of my favorite parts of this journey has been creating my "Fan of the Day" videos, highlighting the people who bring our fair to life, because it truly takes every volunteer, exhibitor, supporter, and fairgoer to make the Elroy Fair what it is.

I want to thank our community for the constant support you show not only to me, but especially to the youth who are growing up through agriculture. The opportunities provided through our fair allow young people to learn responsibility, leadership, and hard work while chasing their dreams. It truly takes a community to help make those dreams possible, and the Elroy Fair continues to be a place where young exhibitors are encouraged, supported, and celebrated.

Finally, I want to give a heartfelt thank you to the Elroy Fair Board for giving me the opportunity to serve as Fairest of the Fair this past year and for their support along the way. This experience allowed me to step outside the traditional expectations of the role and represent the fair in my own way, which I am incredibly grateful for. I also want to thank the entire community for the love and encouragement you have shown me throughout my 10+ years of exhibiting at the fair. The Elroy Fair has shaped so many memories for me, and I am thankful to be part of a community that continues to support the next generation of agricultural leaders.

From me to you---remember, even if you aren't crowned as a Fan of the Day, as soon as you step onto the fairgrounds and your feet hit the dirt (or mud because it always rains during the Elroy Fair) you become part of what makes the Elroy Fair special!

2026 Dedication: Jessica Bashirian

The Elroy Fair would like to dedicate this year's fair book to Jessica Bashirian. Jess has loyally served the Elroy Fair for the past 30 years in a multitude of capacities. She has served most notably as treasurer for the fair, but also on various fair committees. She represented the Elroy Fair at annual Wisconsin Association of Fairs (WAF) conventions, spring and fall district meetings, zone meetings from Wisconsin to North Dakota, and the International Association of Fairs and Expositions (IAFE) convention held in Las Vegas.

Jess was a two-time deserving recipient of Wisconsin Association of Fairs awards. In 2001, Jess received the Outstanding Fair Person Award for board members serving under 12 years on their fair board.

This was followed by the WAF Hall of Fame Award in 2009 which is given to those serving more than 12 years on their fair board.

Upon joining the Elroy Fair Board, one of the first things Jess accomplished was signing the Elroy Fair up as a member of IAFE. This membership led to the Elroy Fair becoming nationally known and respected for its achievements. From working the door at the Elroy Fair-sponsored haunted house and putting on wristbands for paid fair events to filing many years of annual reports, Jess has always been a person the board could count on. She helped keep us grounded with some of our wild ideas and has served the fair with fiscal responsibility. Jess helped secure the fair's 501(c)3 status as a non-profit entity. She is also a founding and continuing sponsor of the Dairy Bonus.

Jess has been active in many capacities outside of the fair including serving on Elroy's Community Development Authority, as chief election inspector for the City of Elroy, a member of the Friends of the 400, and the former police commission. Jess owned Royall Awards and provided the fair with ribbons and Fairest of the Fair sashes for many years. She also enjoys quilting and has won awards for her stitching.

It is with great honor and gratitude that the Elroy Fair recognizes Jess Bashirian by dedicating to her the 2026 premium book. Thank you for 30 years of service to the Elroy Fair.

 - (3) State aid may be paid only on articles or animals actually on display in an exhibit building or actually shown in the show ring on regular fair dates unless approval for split fair dates is obtained under s. [ATCP 160.02 \(4\)](#). ANIMAL HEALTH RULES AND REGULATIONS FAIRS AND SHOWS IN WISCONSIN: 2025 SEASON

GENERAL REQUIREMENTS FOR SHOW ORGANIZERS

All fairs or exhibitions of any length must obtain, review, and keep for five years all required records and test results:

- Exhibitor's name and address
- Animal identification (number, type, description, and when required, official identification. See requirements for different animals below.)
- Documents showing compliance with disease testing and other health requirements
- Livestock premises number, if any, where animals originated
- Documentation showing legal importation (if applicable) and when required, movement to the event. (see requirements for different animals below).
- For swine, a record of any swine transported directly to a slaughtering establishment
- For swine, a record of any swine transported to an animal market where all animals sold at the market sale for that day were shipped directly to a slaughtering establishment

Fairs or exhibitions lasting more than 24 hours must appoint a licensed veterinarian to inspect all animals daily.

Note: Except in specific circumstances, if an animal already bears an official 840 eartag, that eartag must not be removed and additional official eartags must not be applied. Instead the existing eartag must be read and recorded when a record of that animal is required. (Ref. s. ATCP 10.045, Wis. Admin. Code)

These regulations apply to all fairs and exhibitions, including additional events (like rodeos, shows, or other organized events) that occur in conjunction with the fair.

DISEASES

Lactating Dairy Cattle: Effective April 29, 2024 and June 19, 2024 respectively, all lactating dairy cattle moved interstate and lactating dairy cattle moved to fairs, shows, and exhibitions in Wisconsin are required to have a negative influenza A test from a milk sample collected within 7 days of movement. For more information see: [DATCP Home Highly Pathogenic Avian Influenza \(H5N1\) in Dairy Cattle \(wi.gov\)](#)

Animals that show evidence of having contagious or infectious diseases may not be commingled (or housed/kept) with other animals at a fair, show, or other exhibition in such a way as to allow disease to spread. Such animals should not attend the fair, show, or exhibition. Animals may be denied entry if they arrive at these events with contagious or infectious diseases, isolated and/or removed if they develop disease after arriving, or be subject to other action as would be necessary to control disease. (Ref. s. ATCP 10.08(1), Wis. Admin. Code)

Bovine animals with ringworm, mange, warts or scab will be removed from the fair or exhibition premises, unless the veterinarian in charge finds warts or ringworm lesions are incapable of transmitting disease.

CATTLE AND BISON

Cattle and bison FROM WITHIN WISCONSIN: Effective June 19, 2024, all lactating dairy cattle are required to have a negative Influenza A test on milk samples collected within 7 days prior to movement to a fair or exhibition. Official ID is required for influenza testing.

Cattle and bison FROM OUTSIDE WISCONSIN (Ref. s. ATCP 10.22, Wis. Admin. Code) must:

- Be accompanied by certificate of veterinary inspection (CVI or health certificate)^a documenting official animal identification (ID) and all required tests and certifications.

SWINE

Note: These regulation apply to all swine, including pet pigs and racing pigs.

Note: Herd of origin means the herd in which the pigs currently reside, likely the exhibitor's herd. When pigs are purchased from a herd, the herd from which they originate is the herd of origin for the seller. Once the purchased pigs are added into the buyer's herd (even if the buyer's herd only consists of one or just a few animals), the buyer's herd becomes the new herd of origin and that herd must meet testing requirements to move pigs again.

Swine from within Wisconsin (Ref. s. ATCP 10.32(2) and 10.87, Wis. Admin. Code) **need a Wisconsin intrastate movement certificate** (CVI or health certificate):

- Stating that the herd of origin was inspected on the farm within 30 days before the show and showed no signs of disease
- **Non-terminal Exhibitions:** All swine must have a PRRS (Porcine Reproductive and Respiratory Syndrome) and PEDv (Porcine Epidemic Diarrhea virus) test of the herd of origin within 90 days of the exhibition. Include test date, type, and results on the CVI. For swine originating from herds with positive tests, include the herd plan number on the CVI.
- **Terminal Exhibitions:** No testing requirements.

Note: Terminal Exhibitions are those at which the swine go directly from the fair/show to the slaughtering establishment OR to a slaughter only market sale. If going to a slaughter only market sale, contact the Division of Animal Health fair inspector for required information to collect.

Note: If the fair intends to use a load-out facility, contact the Division of Animal Health in advance to discuss requirements that must be met.

Swine from outside Wisconsin need a certificate of veterinary inspection that includes the following:

- Ref. s. ATCP 10.30 and 10.87, Wis. Admin. Code
- The negative results of the PRRS test from the swine's herd of origin conducted within 90 days prior to movement into Wisconsin test date, type, and results.
- The negative results of the PEDv test from the swine's herd of origin conducted within 90 days prior to movement into Wisconsin including test date, type, and results.
- A statement that the veterinarian has inspected the entire herd of origin within the past 30 days and that no clinical signs of PRRS and PEDv or any other apparent disease was present at the time of inspection
- Official individual ID
- If the herd of origin tests positive for PRRS and/or PEDv, contact the DATCP at 608-224-4872 for options

Acceptable methods of ID for swine are:

- USDA silver ear tag
- USDA 840 ear tag, either visual or RFID
- Breed association tattoo if the pig is a purebred and the tattoo is registered
- An ear tag with the premises identification number and a unique identifier
- Ear notch (if the pig is a purebred and the notch is registered)

Note: Microchips are not accepted as official ID for any swine including pet pigs.

Requirements are subject to change as conditions warrant. **2026 WAIVER CURRENTLY IN PLACE.** For current information on PRRS and PEDv, check https://datcp.wi.gov/Pages/Programs_Services/SwineMovement.aspx

SHEEP AND GOATS

Note: These rules do not apply to non-domestic sheep and goats. See Exotic Ruminants below

Sheep and goats from within Wisconsin:

- If sexually intact, need official individual ID at any age
- If not sexually intact, need official individual ID if they are 12 months or older
- See official ID options.

Sheep and goats from outside Wisconsin:

- Ref. s. ATCP 10.69, 10.76, Wis. Admin. Code
- Certificate of veterinary inspection (CVI or health certificate) and official individual ID for all animals.
- See below for Official ID options.
- See below for additional requirements for goats from Michigan's Tuberculosis Modified Accredited Zone.
- Sheep and goats that go to a market or slaughter establishment after the fair should have an owner hauler statement to move from the fair to the market/slaughter establishment.

Official Identification includes:

- Scrapie eartags (including tags on neckstraps for animals with absent/injured ears or with official tattoos – see DATCP Website*)
- USDA 840 ear tags
- Legible breed tattoos (see DATCP Website* and NOTE below)
- Legible scrapie tattoos (see DATCP Website* and NOTE below)
- Approved microchips (Electronic Identification/EID) – There are many requirements that need to be met to use microchips including a requirement for accompanying tattoos. See DATCP Website* and NOTE below.

Note: All sheep and goats that may go through a market or to slaughter and require Official Identification must be eartagged with Official ID. Official ID in the form of a tattoo or Electronic Implantable Identification (EID) is no longer sufficient when moving through a market or going to slaughter.

Note: If a Wisconsin origin animal is neutered, less than 12 months of age, and moving through a market after the fair, the market may require Official ID in the form of an ear tag.

*For more information on official identification and for owner hauler statements see DATCP Website at https://datcp.wi.gov/Pages/Programs_Services/OfficialID.aspx

Goats from Michigan's Tuberculosis (TB) Modified Accredited Zone also need:

- Import permit
- To originate from a herd that has a negative whole-herd TB test within 12 months before arrival in Wisconsin that includes all animals 1 year and older
- Negative individual TB tests within 60 days before entering Wisconsin
- To return directly to the state of origin after the show, and there must be a statement on the CVI that they will be doing so.

For information on obtaining an import permit:

- Online https://datcp.wi.gov/Pages/Programs_Services/AnimalMovementPermits.aspx
- Email DATCPAnimalImports@wi.gov
- Call 608-224-4872

Requirements are subject to change as conditions warrant. For current information, check

https://datcp.wi.gov/Pages/Programs_Services/SheepGoatMovement.aspx

EQUINE

Equine animals from within Wisconsin need documentation of a negative EIA test done within the previous 12 months, which clearly identifies the animal by complete description, digital photographs, or an approved microchip (if a reader is available). No test is needed for nursing foals accompanying negative dams. Documentation may be:

- Official test report VS 10-11, or
- USDA-approved electronic test form, or
- Global Vet Link EIA electronic form, or
- Certificate of veterinary inspection with the test results listed.

Equine animals from outside Wisconsin (Ref. s. ATCP 10.36, Wis. Admin. Code) need:

- Certificate of veterinary inspection (CVI or health certificate) which clearly identifies the animal by complete description, digital photographs, or an approved microchip

- Negative EIA test done within previous 12 months that is reported on the CVI
 - No EIA test is needed for nursing foals accompanying negative dams
- Equines from Minnesota** are exempt from the CVI if:
- Ownership does not change while the animal is in Wisconsin
 - The animal remains in Wisconsin no longer than 7 days
 - Proof of a negative EIA test in previous 12 months accompanies the animal
- Requirements are subject to change as conditions warrant. For current information, check https://datcp.wi.gov/Pages/Programs_Services/HorseOtherEquineMvmt.aspx

- For sexually mature birds (turkeys over 6 months, all other birds over 4 months), individual tests within 90 days before arrival at the show. These birds also need wing or leg band identification (ID). All birds must test negative for pullorum-typhoid, and turkeys must test negative for Mycoplasma gallisepticum. After testing there can be no change of ownership or commingling with other birds that are not part of the flock except at other shows/fairs. Eggs and sexually immature birds are not eligible for individual testing and cannot be shown unless they originate from an enrolled NPIP, NPIP affiliate, Wisconsin Tested, or Wisconsin Associate flock.

Note: Flock of origin means the flock in which the birds currently reside, likely the exhibitor's flock. Once purchased birds are added to the buyer's flock, even if the buyer's flock only consists of one or just a few birds, the buyer's flock is the flock of origin and that flock must meet NPIP or WI Tested or Associate Flock status to avoid individual bird testing for shows/fairs

Poultry and waterfowl from outside Wisconsin (Ref. s.ATCP 10.42, Wis. Admin. Code) need a certificate of veterinary inspection (CVI or health certificate) or equivalent (such as form VS 9-3) specifically showing movement to the fair or show that states:

Dear Food Tree Meat Shoppe, Thank you for purchasing my grand champion market hog and bidding on my steer at the 2026 Elroy Fair livestock auction. I learned a lot with my animal projects this year, and I will miss working with my animals "Bacon" and "Brisket" at home every day. I plan to use the money from my animals to buy more market animals for next year's fairs. Thank you for your support of the youth at the Elroy Fair.
Sincerely, Edward Exhibitor

PROTECT THE FUTURE OF LIVESTOCK AT THE ELROY FAIR!

Livestock exhibitors and their livestock are very important to us. However, livestock can be a source of contamination, including pathogens and zoonotic animal diseases. Our goal at the Elroy Fair is to create and maintain an environment where livestock, exhibitors and visitors to the fair can co-exist in a safe and pleasurable place.

The Elroy Fair places a strong emphasis on bio-security against animal diseases and pathogen control for harmful bacteria like Salmonella and E. coli.

Pathogen Control: A comprehensive self-assessment of our entire grounds has been completed. As a result, we have reconfigured the location of our signage and hand washing stations as well as improved our sanitation and record keeping activities in order to keep our barns as clean and sanitary as possible.

Bio-Security: A comprehensive bio-security protocol to minimize the risk of disease transmission from animals to humans, as well as between animals will be in effect during the fair. This bio-security protocol includes veterinarian inspections before and/or throughout the fair. We encourage fairgoers to thoroughly clean all pens/stalls after removal of their animals at the end of the fair.

But we need your help!

As an exhibitor we need you to be **ROLE MODELS** to visitors and others at the fair. This includes your ongoing efforts to manage animal waste, properly store waste management equipment (shovels, pitchforks, and wheelbarrows) away from visitors, and avoid drinking and eating in the barns. Additionally, we need you to notify us if you see any signs of illness in animals around you, and if any of your animals are showing signs of illness prior to fair, to leave them home.

By doing your part to reduce the likelihood of contamination

from pathogenic bacteria and/or the transmission of zoonotic diseases at the fair, especially to body systems that have not typically been exposed to specific pathogens or have weakened immune systems, we can continue to include animal events in the Elroy Fair long into the future. Thank you.

**It is expected all people attending the fair practice
BIO- SECURITY to ensure the safety of exhibits and
exhibitors at the fair and at home.**
